Commenting on the performance for Q2 FY20, Mr. Gopal Sarma, Group CEO, Kolte-Patil Developers Limited said:

“Fully recognizing the importance of a vibrant real estate ecosystem in fulfilling our potential as an emerging economic superpower, the Government has followed up its previously implemented structural policy initiatives with the recently announced measures that will go a long way to impart liquidity into the system, drive progress in stalled projects, capitalize stressed developers and provide new employment opportunities to millions - consequently boosting housing demand as homebuyers’ confidence returns. We believe that the long-term outlook is one of consolidation in the sector and benefits will accrue to only those developers with a brand equity built on corporate governance, innovation and execution. This further strengthens the structural investment theme around Kolte-Patil with consistently low debt, predictable cash generation and clear roadmap for sustainable and profitable growth.”

We continued to build on the customer-centric framework of sales, collections, cash flows, construction and deliveries, which further strengthened our operations. Execution remains strong, we completed 1,053 units during Q2 aggregating to 1.2 msf. Sales momentum was maintained sequentially at 0.5 msf in Q2, which we believe is a stable outcome in a traditionally weak demand period of the year and in light of the subdued consumer sentiment. Q2 sales were driven by Life Republic, Western Avenue, Opula, Ivy Estate and Exente. We expect an upward sales trajectory in H2 from planned sales promotion activities, availability of finished inventory due for receipt of occupation certificates at Jai Vijay (Mumbai) and Raaga 2 (Bengaluru). These projects will further augment the free cash flows during the second half of the year.

Our robust operational performance will allow us to use internal accruals for the buyout of ICICI Venture’s next tranche in Life Republic. Recently, we delivered strong returns with an IRR of 23.1% over 45 months to Motilal Oswal Real Estate from our City Avenue project located in Wakad in Pune. This highlights the company’s brand equity, execution track record and ability to monetise its assets faster, enabling attractive returns on investment for Kolte-Patil as well as its partners.

During H1, collections have come in at Rs. 636 crore, up from Rs. 603 crore on a year-on-year basis. Following last year’s trend, H2 is expected to be better than H1. We have set up the foundation for delivering strong collections for the year, likely to be the highest ever in the company history.

Going forward, we see value-accretive opportunities in the market for well-capitalized players to pursue new acquisitions and will look at expanding the portfolio through outright/structured land purchases as well as capital-light growth opportunities, taking a holistic, 360-degree approach to longer term growth prospects.”
